

# International Conference on Bio-based Materials

th 8–10 April 2014, Maternushaus, Cologne, Germany

**Highlights from Europe:** Bio-based Plastics and Composites – Biorefineries and Industrial Biotechnology

## **HIGHLIGHTS FROM EUROPE:** **Bio-based Plastics and Composites –** **Biorefineries and Industrial Biotechnology**

This conference aims to provide major players from the European bio-based chemicals, plastics and composite industries with an opportunity to present and discuss their latest developments and strategies. Representatives of political bodies and associations will also have their say alongside leading companies. For the second time, the conference will count with a third day especially dedicated to the recent achievements in research & development. One highlight of the conference will be the presentation of the first running European Biorefineries and the state-of-art of Industrial Biotechnology.

The 7<sup>th</sup> International Conference on Bio-based Materials ("Biowerkstoff-Kongress") builds on successful previous conferences: in 2013 were 180 participants and more than 10 exhibitors represented. More than 200 participants and 20 exhibitors mainly from industry are expected!

## Innovation Award

### “Bio-based Material of the year 2014”

For the seventh year running the Innovation Award “Bio-based Material of the Year” will be awarded to the young, innovative bio-based chemicals and materials industry for finding suitable applications and markets for bio-based products. The competition focuses on new developments in these areas, which have had (or will have) a market launch in 2013 and 2014, exclusively coming from Europe this time round.

## Exhibition Bio-based Plastics and Composites

Use the extraordinary chance to present your company and your products at the conference with an exhibition stand! Prices starting at 800 €.

We would be glad to provide you with a nonbinding offer, please contact:
