# **Industrial Biotechnology Forum 2016**

March 14/15, 2016 · Technische Universität München (TUM) · Garching

The **Industrial Biotechnology Forum (IBF) 2016** is a scientific conference that brings together recent developments from the core fields of industrial biotechnology – enzyme engineering, metabolic engineering, bioprocess engineering, and bioseparation engineering. As launching event of a biennial conference, the IBF 2016 intends to facilitate an interdisciplinary exchange and productive discussions between scientists from academy and industry. The IBF is organized by the Industrielle Biotechnologie Bayern Netzwerk GmbH, Martinsried, with scientific support provided by the TUM-Research Center for Industrial Biotechnology, Garching.

### IBF 2016

March 14/15, 2016 at the TUM Department of Mechanical Engineering, Garching

Call for Abstracts January 15, 2016

Early Registration February 15, 2016

## www.ibf-conference.org

#### Organizer

Industrielle Biotechnology Bayern Netzwerk GmbH Am Klopferspitz 19 82152 Martinsried

## **KEYNOTE SPEAKERS**

- Dr. Miguel Alcalde, Institute of Catalysis, CSIC, Madrid, Spain
- Prof. Dr. Uwe Sauer, Institute for Molecular Systems Biology, ETH Zürich, Switzerland
- Prof. Dr. John Woodley, Department of Chemical and Biochemical Engineering, DTU, Denmark
- Prof.dr.ir. Luuk van der Wielen, Department of Biotechnology, TU Delft, Netherlands

Furthermore, the conference will include a **guided tour** to the TUM-Pilot Plant for White Biotechnology and the TUM Algea Pilot Plant.

For detailed information, the final program and for registration, please refer to www.ibf-conference.org.

In the name of the scientific organization committee we invite you to submit your recent results for oral or poster presentation and to participate at the IBF 2016.
