RESOURCE EFFICIEN

EUROPE

Tuesday, 2 December 2014		
Registration		
Welcoming remarks by François de Bie, Chairman European Bioplastics		
Keynote Speeches		
The role of bioplastics in the Circular Economy DG Environment Helmut Maurer		
Future EU legislation on the reduction of plastic bags – what opportunities for bioplastics? The Greens in the European Parliament / European Free Alliance Axel Singhofen		
Policy Landscape for Bioplastics		
The strategic role of bioplastics in waste management – an overview International Solid Waste Association (ISWA) David Newman		
Industry prespective on the EU Waste Target Review The European Organization for Packaging and the Environment (EUROPEN) Virginia Janssens		
Circular Economy based on "The Biorefinery" concept Novamont Stefano Facco		
Coffee Break		
Alternative Feedstocks for Bioplastics		
Bioconversion of renewable feedstock and (agri/food) residues into lactic acid Leibniz-Institute for Agricultural Engineering Joachim Venus		
Using methane gas for the affordable production of bioplastics Mango Materials Molly Morse		
Biotrem Novum - new compostable packaging material made from bran COBRO Joanna Kuzincow, Krzysztof Wójcik		
Carbon dioxide based polypropylene carbonate (PPC) applications Bio-solutions John Leung		
Lunch		
New Processes & Applications		
New Processes & Applications		
3D Printing a House – Bio-based Raw Materials for High Performance Applications Henkel Paolo Pavaj		
3D Printing a House – Bio-based Raw Materials for High Performance Applications		
3D Printing a House – Bio-based Raw Materials for High Performance Applications Henkel Paolo Pavaj Combined bioplastics in one application		
3D Printing a House – Bio-based Raw Materials for High Performance Applications Henkel Paolo Pavaj Combined bioplastics in one application FKuR Patrick Zimmermann Sneak peek market launch Europe		
3D Printing a House – Bio-based Raw Materials for High Performance Applications Henkel Paolo Pavaj Combined bioplastics in one application FKuR Patrick Zimmermann Sneak peek market launch Europe Sinvestec John Williams Renewable 5-HMF for bioplastics		
3D Printing a House – Bio-based Raw Materials for High Performance Applications Henkel Paolo Pavaj Combined bioplastics in one application FKuR Patrick Zimmermann Sneak peek market launch Europe Sinvestec John Williams Renewable 5-HMF for bioplastics AVA Biochem Thomas M. Kläusli		
3D Printing a House – Bio-based Raw Materials for High Performance Applications Henkel Paolo Pavaj Combined bioplastics in one application FKuR Patrick Zimmermann Sneak peek market launch Europe Sinvestec John Williams Renewable 5-HMF for bioplastics AVA Biochem Thomas M. Kläusli Coffee Break		
3D Printing a House – Bio-based Raw Materials for High Performance Applications Henkel Paolo Pavaj Combined bioplastics in one application FKuR Patrick Zimmermann Sneak peek market launch Europe Sinvestec John Williams Renewable 5-HMF for bioplastics AVA Biochem Thomas M. Kläusli Coffee Break PLA Material Trends & Innovations Recycling: The leverage effect. Towards a sustainable future with (bio)plastics		
3D Printing a House – Bio-based Raw Materials for High Performance Applications Henkel Paolo Pavaj Combined bioplastics in one application FKuR Patrick Zimmermann Sneak peek market launch Europe Sinvestec John Williams Renewable 5-HMF for bioplastics AVA Biochem Thomas M. Kläusli Coffee Break PLA Material Trends & Innovations Recycling: The leverage effect. Towards a sustainable future with (bio)plastics Engineering Recycling Maschinen und Anlagen (EREMA) Gerold Breuer More biobased plastics for 3D-printing		
3D Printing a House - Bio-based Raw Materials for High Performance Applications Henkel Paolo Pavaj Combined bioplastics in one application FKuR Patrick Zimmermann Sneak peek market launch Europe Sinvestec John Williams Renewable 5-HMF for bioplastics AVA Biochem Thomas M. Kläusli Coffee Break PLA Material Trends & Innovations Recycling: The leverage effect. Towards a sustainable future with (bio)plastics Engineering Recycling Maschinen und Anlagen (EREMA) Gerold Breuer More biobased plastics for 3D-printing IKT - Institut für Kunststofftechnik Linda Göbel PLA business plans for applications beyond shopping bags		
3D Printing a House – Bio-based Raw Materials for High Performance Applications Henkel Paolo Pavaj Combined bioplastics in one application FKuR Patrick Zimmermann Sneak peek market launch Europe Sinvestec John Williams Renewable 5-HMF for bioplastics AVA Biochem Thomas M. Kläusli Coffee Break PLA Material Trends & Innovations Recycling: The leverage effect. Towards a sustainable future with (bio)plastics Engineering Recycling Maschinen und Anlagen (EREMA) Gerold Breuer More biobased plastics for 3D-printing IKT - Institut für Kunststofftechnik Linda Göbel PLA business plans for applications beyond shopping bags Sulzer Emmanuel Rapendy bioplastics MAGAZINE presents the 9th Annual Gobal Award for Developers, Manufacturers and Users of Biobased Plastics		

PROGRAMME

Wednesday, 3 December 2014

I	Registration		
(Opening remarks by Hasso von Pogrell, Managing Director European Bioplastics		
	tba Ecover Tom Domen		
	Market development of bioplastics - Annual statistics update European Bioplastics Kristy-Barbara Lange		
	Why only a transparent, credible conversation with the consumer will drive real demand for bioplastics Sustainability Consult Kathryn Sheridan		
I	Biobased Labelling - Panel Discussion		
A	ANIPAC Salvador Ortega	Japan Bioplastics Association Isao Inomata	
[DIN CERTCO Oliver Ehlert	Organic Waste Systems (OWS) Bruno De Wilde	
E	European Bioplastics Constance Ißbrücker	US Department of Agriculture BioPreferred Program Ron Buckhalt	
I	End of Life and Sustainability of Bioplastics		
1	The value proposition and issues relating to biodegradability in terms of product end of life particularly the marine environment and recycling University of Michigan Ramani Narayan		
	Is biobased more environmental-friendly than fossil-based? Ecofys Netherlands BV Michiel Stork		
I	The environmental sustainability of biopolymers - challenges and approaches Institute for Bioplastics and Biocomposites/University of Applied Sciences and Arts Hannover Hans-Josef Endres PE International Martin Baitz		
	Perstorp's sustainability strategy and the use of compostable plastics in Sweden Perstorp Linda Zellner		
	The biomaterials' EoL of Horizon 2020 & 2030 NaturePlast Laurent Bélard		
I	Lunch		
(Closing remarks by François de Bie, Chairman European Bioplastics		
	Question time & discussion: How to assess biobased content in bioplastics?		
I	Led and moderated by		

CEN Working Group 411 | Harmen Willemse
